

# 15MWh energy storage container for airport use in Amsterdam

How will ESS work at Amsterdam Airport Schiphol?

The ESS system will enable Amsterdam Airport Schiphol to phase-out polluting diesel ground power units that currently supply electrical power to aircraft while parked at airport gates. These will be replaced with Electric Ground Power Units (E-GPUs).

Why is ESS Energy warehouse commissioned?

Commissioning of ESS Energy Warehouse will support electrification of ground operations and reduce emissions at Amsterdam Airport Schiphol

Will Amsterdam Airport Schiphol decarbonize?

"Amsterdam Airport Schiphol has set an ambitious goal for decarbonization and has provided great leadership in taking the necessary actions to make it real," said Eric Dresselhuys, CEO of ESS. "This project provides a blueprint for LDES to safely provide clean, reliable energy in airport operations and reduce fossil fuel dependence.

What is the Tulips project at Amsterdam Airport Schiphol?

The project at Amsterdam Airport Schiphol will support the Royal Schiphol Group's ambitious climate targets and is supported by the TULIPS consortium. TULIPS is an EU-funded consortium of airports across Europe seeking to accelerate the deployment of renewable energy within Europe's aviation sector.

Phasing out diesel power units ESS Technology manufactures long-duration energy storage (LDES) systems for commercial and utility-scale applications. The ESS Energy Warehouse ...

Will Amsterdam Airport Schiphol achieve a decarbonisation goal? "Amsterdam Airport Schiphol has set an ambitious goal for decarbonisation and has provided great leadership in taking the necessary ...

ESS Technology has commissioned a long-duration energy storage (LDES) system at Amsterdam Airport Schiphol (AMS). This system will support the electrification of ground operations ...

Amsterdam's Schiphol Airport is to conduct a trial into deploying energy storage to replace diesel generators currently used to power stationary aircraft. As part of its wider sustainability ...

AMSTERDAM - May 6, 2024 - ESS Tech, Inc. (ESS) (NYSE: GWH), a leading manufacturer of long-duration energy storage (LDES) systems for commercial and utility-scale applications, today ...

ESS Tech, a manufacturer of long-duration energy storage (LDES) systems, has commissioned the initial stage of its project at Amsterdam Airport Schiphol This marks the launch of ...

ESS Inc, a leading manufacturer of long-duration energy storage systems for commercial and utility-scale applications, will deliver its iron flow battery solution to Amsterdam Airport Schiphol, ...

## **15MWh energy storage container for airport use in Amsterdam**

Long-duration energy storage (LDES) system manufacturer ESS Tech has completed the commissioning on the initial system installed to electrify ground operations at Amsterdam Airport ...

ESS Energy Warehouse. Image credit: ESS Tech, Inc. ESS Tech has commissioned an energy storage system at Schiphol Airport in Amsterdam, which will be used to phase out diesel ground power units ...
