

AC/DC solar powered water pump is available for both Alternating Current power and solar energy, which allows the pump work in the low or non sunlight hours. 2 years warranty. Any quality problem, ...

We have stocks of hot-selling models, such as 3 inch, 4 inch pump with plastic or stainless steel impeller. If you become our long-term stable distributor, we will prepare your own brand of MPPT ...

4DLR 4-inch solar water pump with plastic impeller: The 4-inch plastic impeller pump is cost-effective and has a larger flow. Maximum flow rate can reach 13 cubic meters per hour. Copper outlet, copper ...

Featuring lightweight, corrosion-resistant plastic impellers, the pumps are built for durability, easy installation, and minimal maintenance. Their 4-inch size allows for compatibility with standard ...

Model Number:4PII Series Material:304 Stainless Steel Pump Body,304 Stainless Steel Pump Head,304 Stainless Steel Impeller Voltage:DC 24 V~280V Other:Application: Irrigation and ...

Baile Pump submersible solar pumps feature high pumping efficiency, excellent durability and long service life, suitable for drinking water supply or farm irrigation.

Durable 4-inch solar water pump kit, made in China. This kit is a complete kit that uses solar energy to pump water from a well or other water source.

The solar PV system voltage needs to meet the voltage range in the figure below. For example: The 4DPC6-56-110-750-HV model matches the solar panel voltage between 120V~420V.

Premium Material: This Solar Water Pump Is Made Of High Quality Stainless Steel, Corrosion Resistance, Heat Resistance, High Temperature Resistance. This Material Ensures That ...

We had designed a new solar water heater frame that is very easy install and also the packing size is very small. And we had got the certificate of utility model patent for this new frame in 2013.
