

Upgrade your home or industrial water systems with our 48V Stainless Steel Solar Water Pump. Perfect for deep well usage!

With a wide voltage range of DC 48V-82V, you pick the solar panels and power system that suit you better. Large Flow and High Head: With a head that reaches up to 273 ft and a flow rate of 8.4 GPM, ...

It's 100% green, efficient and cheap! Each pump comes with its solar panel, and it's straightforward to install and use. The pumps and panels come in all sizes and designs, and it serves a significant ...

SOLAR ENERGY: The deep well submersible pump can be supported by batteries if you need the flexibility of pumping on demand at any time. Moreover, it is suggested to be connected with solar panel (not included), which is high energy conversion rate, environmental-friendly and lower consumption.

We have solar powered water well pump with 12V/24V/48V. Oil filled motor, stable& reliable running with pressure regulating membrane. Energy-saving and environment-protected green products. High ...

With a wide operating voltage range, you can choose the most suitable solar panels and power system. High head and flow rate ensure efficient water delivery for irrigation or drinking water needs. The fully ...

Our solar water pump runs directly off solar panels, and no batteries are needed; With a wide voltage range of DC 48V-82V, you pick the solar panels and power system that suit you better;

The solar water pump controller drives the high efficient brush-less DC pump motor, utilizing the latest MPPT technology to ensure maximum flow is delivered under all light conditions.

The definitive guide to solar water pumps. We cover how they work, how to size the right panels and pump for your project, costs, and installation. Use our interactive calculator to design ...

We've been testing this solar-powered submersible pump and we're impressed by its sustainable approach to irrigation needs. Operating at 48V with 280W of power, this stainless steel ...
