

Whether you're a homeowner in Narrabundah or managing a commercial site in Fyshwick, the Sigenergy SigenStor battery system is designed to deliver reliable, cost-saving energy storage that ...

With ambitious climate targets - including 100% renewable electricity by 2025 - the Australian Capital Territory (ACT) relies on cutting-edge storage systems to stabilize its grid. Let's explore how these ...

Integrating Solar Inverter, EV DC Charger, Battery PCS, Battery Pack, and EMS into one powerful energy system - this is our revolutionary 5-in-One Home ESS. Simplified to give you a smart ...

The perfect option to couple with an iStore Hybrid inverter, the iStore Battery is a modular energy storage system designed to suit your energy needs, no matter how large or small they may be.

In the heart of Australia's energy innovation landscape, Canberra power frequency intelligent inverters are revolutionizing how industries manage electricity. This article explores their applications, ...

The Big Canberra Battery will play a crucial role in managing peak electricity use demand and in supporting the ACT's transition to a more sustainable energy future.

Each unit will feature a 160 kW discharge capacity and 400 kWh of energy storage, integrated with grid-interactive inverter systems that enable bidirectional power flow.

Tesla Powerwall 3 is a fully-integrated DC inverter and battery system. Utilising advanced rechargeable lithium-ion battery technology, the Powerwall offers robust energy storage solutions, enhancing solar ...

In an era focused on sustainability, Trilogy Electrical Services stands as one of Canberra's leading experts in energy optimisation and storage. We specialise in providing state-of-the-art green energy ...

Canberra is taking bold steps towards a sustainable future, with recent initiatives set to transform how we generate, store, and use energy. Here's what you, as a Canberra resident, need to ...
