

The Air-Cooled 100KWh Outdoor Cabinet Series C& I Energy Storage System features an integrated design that combines batteries, BMS, EMS, modular inverter, and fire protection

Patented outdoor cabinet protection design, optimized heat dissipation air duct, protection against sand, dust and rain; The front and rear sides are open for maintenance, which is convenient for the layout ...

This integrated solar battery storage cabinet is engineered for robust performance, with system configurations readily scalable to meet demands such as a 100kwh battery storage requirement.

Our 50KW/100KWH outdoor cabinet energy storage system, with its excellent performance and thoughtful design, is the ideal choice for outdoor energy storage applications.

The Air-Cooled 100KWh Outdoor Cabinet Series C& I Energy Storage System features an integrated design that combines batteries, BMS, EMS, modular inverter, and fire protection system into one ...

With a rated AC power of 50kW and a rated capacity of 100kWh, this system boasts a high system voltage range of 739.2V to 950.4V. Benefit from advanced features such as MPPT range of 315 ...

This integrated outdoor cabinet features lithium iron phosphate (LFP) batteries, modular PCS, EMS, power distribution, fire protection, and an advanced liquid cooling system that enhances thermal ...

The 100 kWh outdoor energy storage cabinet adopts an integrated design concept, integrating the battery, battery management system BMS, energy management system EMS, modular inverter PCS, ...

Housed in a weather-resistant IP55 cabinet, it combines a 100kWh LiFePO4 battery pack with 50kW charge/discharge capability, supporting real-time monitoring and remote control via Ethernet, RS485, ...

Highjoule's 100kWh Outdoor Cabinet Series integrates the battery, BMS, EMS, modular PCS, and fire protection system into a compact, weatherproof unit. Its modular design ensures flexible deployment ...
