

Four Seasons Sunshine Solar Bracket Installation

How to install a solar panel bracket?

To install a solar panel bracket, apply adhesive to the upper side of the bracket (this is where the solar panel will be positioned). Position and press firmly the side bracket along the side of the solar panel and repeat this process with the other side bracket. Allow the adhesive to dry as per the product specifications.

How do solar panel brackets function?

Solar panel brackets function by being installed through fastening bolts or applying adhesive on the mounting rails onto a flat surface. Solar panels should be installed at an angle to allow the cells to receive as much sunlight as possible.

How do you attach a Z-bracket to a solar panel?

BRACKETS TO THE SOLAR PANEL Figure 1 Align the Z-shape bracket with solar panels holes. Put a washer on the M8*16 bolt and thread it through the Z-bracket and the solar panel. Then put another washer onto the bolt and finally a nylon lock nut. Tighten making sure the Z-brackets supports are pressed firmly against the solar panel.
