

How much does a generator cost?

Portable gasoline generators cost \$500 to \$2,500 for a 3 to 10 kW backup unit. Whole house generators cost \$2,000 to \$6,000 a natural gas or liquid propane system, without installation. Standby backup diesel generators cost \$5,000 to \$18,000. \*Prices for units with power capacity of 2 to 24 kW. Not including installation.

How much does a standby generator cost?

Standby backup generators are permanently installed outside the home, start automatically when the power goes out, and can power the entire house for up to 3 weeks straight. Portable gasoline generators cost \$500 to \$2,500 for a 3 to 10 kW backup unit.

How much does a generator cover cost?

A wheel kit costs \$30 to \$300 and makes it easier to move a heavy generator. A portable generator cover costs \$20 to \$165. Portable generators are smaller and cheaper than backup generators, but are less powerful, must be started and refueled manually, and shouldn't run for more than two consecutive days.

How much does a propane generator cost?

Liquid propane generators cost \$250 to \$4,000 for portable models or \$2,000 to \$6,000 for permanent backup units, depending on size. Liquid propane lasts longer and burns cleaner than other fuels but is more expensive and requires a large storage tank, which increases installation costs.

Explore detailed information about generator set pricing, including cost factors, technological features, financing options, and long-term value considerations for reliable power generation solutions.

A generator set pricelist serves as a comprehensive guide detailing various power generation solutions and their associated costs. This essential document encompasses detailed specifications, pricing ...

Free generator installation cost calculator. Standby & portable generator setup. Get instant 2026 estimates based on materials, size, and your location. Average cost: \$3,000 - \$15,000.

Having a standby generator is essential for ensuring uninterrupted power during outages. When investing in a standby generator, understanding the installation cost is crucial for ...

Power Systems calculator Generator Calculator Professional generator sizing calculator for electrical engineers, contractors, and facility managers. Calculate standby, prime, and continuous power ...

Use the generator cost calculator to see clear ranges by type, fuel, and location, then compare brands, permits, and labor factors before requesting quotes.

A portable generator costs \$500 to \$2,500. A whole house generator costs \$3,000 to \$6,000 for the unit alone or \$6,000 to \$11,000 with installation.

Calculate exact Generac generator costs with our professional tools. Get accurate pricing for 10kW-150kW generators, installation costs, and total investment. Updated June 2025.

Understand the Generator Installation Cost Guide to find the perfect backup power solution for your home or property.

The typical project cost to install a home generator varies based on generator size, fuel type, transfer switch complexity, and site conditions. This guide presents clear price ranges and ...
