

Greece is already becoming a testbed for sophisticated, AI-driven energy management. Key initiatives are demonstrating how to intelligently integrate solar assets with battery storage to ...

State-backed PPC Renewables has appointed Trina Storage to supply its battery energy storage systems (BESS) and long-term services for the 50 MW / 200 MWh Amyntaio battery project ...

PPC Renewables has launched construction on its third large-scale BESS in Greece, for which Trina will supply the energy storage technology.

Battery Energy Storage Systems (BESS) in Greece are transitioning from early-stage pilots to critical infrastructure, driven by a rapidly maturing regulatory framework and increasing ...

If these elements align, Greece can become a regional leader in energy storage, setting an example for the broader Southeastern European energy transition. In this sense, the story of ...

The Greek Ministry of Energy and Infrastructure has increased its target for a merchant standalone battery energy storage system (BESS) rollout to 3.55 GW against the background of rising...

Trina Storage, the energy storage arm of Trinasolar, has signed its first energy storage project in Greece with PPC Renewables, marking a major milestone for the company's expansion ...

Karatzis Group and METLEN (MTLN.L) launch a EUR170M joint venture to build Greece's largest standalone battery energy storage system (330MW/790MWh) in Thessaly, advancing the ...

A new large-scale battery energy storage project planned by Metlen and the Karatzis Group in Thessaly is set to become a landmark development for Greece's energy sector.

The new plan, prepared by the Ministry of the Environment and Energy, calls for installing 4,700 MW of standalone battery projects across the country, equal to the entire projected capacity ...
