

Discover innovative solar installation systems and financing models to enhance energy efficiency. Ideal for EPCs, project planners, and investors

The European Commission has approved a EUR1bn Greek aid measure package to support two renewable power production and storage projects in Greece.

The Seli Project entails the construction of a 309 MW photovoltaic unit with an integrated lithium-ion battery energy storage system. This project aims to optimise electricity generation and grid stability. ...

The European Commission has approved a EUR1 billion (US\$1.1 billion) state aid measure for Greece to support two solar-plus-storage projects.

Greece plans to provide EUR 1 billion in state subsidies to support two solar power projects, with a total capacity of over 800 MW and with integrated energy storage units.

Greek developer Metlen Energy and Metals has partnered with local maritime firm Tsakos Group to build a 251.9MW solar-plus-storage project in Greece, according to a report from ...

The European Commission approves EUR1 billion in state aid for Greece's Faethon and Seli solar projects, set to add 813 MW of renewable energy with innovative storage.

Greece will invest EUR1 billion (\$1.1 billion) to support the installation of 813 MW new solar PV capacity, along with integrated storage solutions, after securing a go-ahead from the European ...

Greek developer Metlen Energy and Metals has partnered with local maritime firm Tsakos Group to build a 251.9MW solar-plus-storage project in Greece.

Greece's energy regulator has launched two new auctions under the Apollo Program, covering up to 200 MW of solar with storage and a separate 400 MW wind tender, marking the ...
