

What happened to Trina Solar?

On December 9, 2024, Trina Solar Co., Ltd. (688599. SH, "Trina Solar") announced that it has terminated the spin-off and listing plan of its holding subsidiary, Trina Rich Energy Co., Ltd. ("Trina Solar"). In April 2023, Trina Solar threw out the above plan.

Why did Trina Solar sell?

**Trina Solar's Exit:** Trina Solar's decision to sell follows scrutiny over foreign entities leveraging American tax incentives for domestic manufacturing, signaling a recalibration in its strategy. **FREYR's Entry:** The acquisition positions FREYR to capitalize on the growing demand for solar energy, aligning with its broader renewable energy ambitions.

Why did Freyr buy Trina Solar?

The acquisition of Trina Solar's Texas factory represents more than a business transaction--it symbolizes a shift in the U.S. renewable energy landscape. By leveraging incentives like those in the Inflation Reduction Act and focusing on self-sufficiency, FREYR is paving the way for sustainable growth.

Why did Trina Solar throw out a tariff plan in 2023?

In April 2023, Trina Solar threw out the above plan. Twenty months later, the PV industry is facing overcapacity and the USTR announcing that it will increase import tariffs on solar wafers, polysilicon and some tungsten products imported from China from January 1, 2025.

The latest "PV Module Tech Bankability Ratings Quarterly" report reveals a Chinese sector on the verge of widespread company insolvencies.
