

High-Temperature Resistant IP65 Battery Cabinet for Sports Venues

Perfect for industrial equipment, electrical cabinets, and outdoor installations, our enclosures offer customizable solutions for renewable energy, telecommunications, and more.

A high protection class battery cabinet that can be applied as standalone or extension of outdoor power system. The system integrates temperature control and ventilation system, heater (option) and ...

Durable design: Built for tough environments, with IP65 protection ensuring the cabinet is resistant to dust, water, and adverse conditions, as well as capable of handling temperature fluctuations.

Constant-temperature Battery Cabinet is made up by heating insulating sandwich plate, which has good heating insulation. To use high efficiency air-conditioning for battery refrigeration, to make sure ...

Options and specifications of weatherproof, IP rated, anti-static, fire retardant, impact resistant battery enclosures

Discover rugged outdoor battery cabinets with IP65 protection, ideal for telecom and solar applications. CE certified, weatherproof steel enclosures ensure reliable performance in harsh environments.

Built with high-strength galvanized or stainless steel, the cabinet offers excellent resistance against water, dust, and corrosion. It is suitable for telecom base stations, solar PV systems, traffic control, ...

The Outdoor Battery Cabinet is a reliable and weatherproof energy storage enclosure designed to protect power and backup battery systems in outdoor environments.

They are manufactured using high-quality galvanized steel sheets, insulation wool, high-temperature resistant EPS or PU materials, featuring a double-layer thickened outer shell for a longer service life.

We provide tailored solar energy solutions for backup, residential, and commercial needs, catering to your unique power requirements.
