

High voltage inverter emergency power supply

The UL924 Listed Si Series emergency lighting inverters operate LED and fluorescent fixtures with pure sinusoidal power during loss of normal AC power. The Si Series 10 to 1150 W inverters support ...

Power Wave 1 is a comprehensive solution for all UL924 emergency lighting inverter requirements. It has a single-enclosure design and high capacity, making it suitable for almost any emergency ...

Acuity Brands provides a comprehensive selection of emergency lighting inverters and related accessories.

Upon failure of the normal utility power the QLPS unit is automatically turned on by a solid-state switching circuit and provides a minimum of 90-minutes of emergency power to the connected load.

Mini inverters include a 4 output circuits to offer an extremely versatile solution for many applications. During a power outage, the emergency fixtures are dimmed to field selectable levels of 25%, 50% or ...

Browse our selection of sinusoidal output emergency lighting inverters which work with a variety of lighting systems and lamp types to keep your lights on during power outages.

Whether you need to keep your lights on during a blackout or power essential appliances, choosing the right inverter can make all the difference. Below is a concise comparison of ...

30 W emergency or back-up power supply in traction inverter using InnoSwitch3-AQ (INN3977CQ)

This state-of-the art software monitors inverter systems and notifies users via email or text message when alarms or critical faults have been triggered. Most Myers EPS Inverters operate at 98% ...

Midsized electrical inverter systems for powering up to 750 to 1150 watts of incandescent, fluorescent, induction or LED lighting loads. Pulse width modulated (PWM) output design provides clean, 60 Hz. ...
