

HI30N/3KW and HI50N/5KW are pure sine wave photovoltaic off-grid home integrated inverters designed with the latest advanced full-digital controlled technology.

The 6kW to 19kW Three-Phase Grid-Tied Solar Inverter from HuiJue Group is engineered to maximize energy harvest for demanding residential, commercial, and small-scale industrial solar installations.

To reduce corporate electricity costs, utilize the difference in peak-valley electricity prices, charge in valley periods and flat periods, and discharge in peak and peak periods.

Our 500,000 m², staffed with 500 workers and equipped with 4 production lines, can output 2000 units telecom cabinet per month. We strictly control every production process, establish a strict quality ...

Why sell solar power cheaply only to buy it back at night at a higher price? This solar battery inverter is designed for self-consumption first. During the day, it powers your home directly with solar energy ...

Huijue Solar's Simplified Solar Inverter With Battery - PV Integrated Machine is an integrated design that combines photovoltaic modules, solar inverters, lithium batteries for energy storage, and energy ...

Huijue Group's Home Energy Storage Solution integrates advanced lithium battery technology with solar systems. Ranging from 5kWh to 20kWh, it caters to households of varying sizes.

Professional manufacturer of solar and power inverters, offering grid-tie inverters, hybrid inverters, off-grid inverters, solar batteries, solar kits, and complete solar energy storage system solutions.

Huijue's Single-phase Hybrid Inverter 3-6kW is ideal for residential rooftop solar systems. During sunny days, it converts DC power generated by solar panels into AC power for immediate use or storage in ...

3,000-Watt inverter charger combines a pure sine wave inverter, converter charger, and automatic transfer switch. Saves space and simplifies installation by consolidating 3 vital components into 1 ...
