

This power supply is featured with several intelligent functions, including remote signaling, remote measurement, and remote control. Furthermore, it's designed with multiple protection mechanisms ...

With multiple functions of battery low discharge voltage protection, output overload protection, high temperature protection, lightning protection, and grounding protection, it has multiple -48V outputs to ...

Container-type energy base station: It is a large-scale outdoor base station, which is used in scenarios such as communication base stations, smart cities, transportation, power systems and other edge ...

Outdoor Cabinet Energy Storage System offers modular design, wide power range, bi-directional power conversion, grid-support functions, flexible configuration, and PV integration for UPS ...

The Huijue Group Off-Grid Solution comprises three main components: photovoltaic systems, energy storage systems, and off-grid systems, enabling energy self-sufficiency.

It had the function of central control, battery maintenance and management to meet the requirements of no one on duty; it could be monitored in real time through the mobile APP.

The outdoor small integrated DC power supply (assembled type) provides power for low-power network access layer devices and, when combined with a battery, can offer long-term backup.

Huijue's Weatherproof outdoor dc power supply for industrial, commercial & home use. Combining efficiency, safety, and scalability, it meets your power needs with optimized usage and real-time ...

The Huijue Group HJ048 Small Integrated DC Power Supply is an IP65-rated outdoor power solution operating at 48V, multi-output, remote monitoring, with advanced protection. It is designed for ...

Traditional charging stations heavily rely on grid power, which is costly and environmentally unfriendly.
