

In 2023, Kehua took the lead in applying grid-forming energy storage technology in a hundred MW-level energy storage project, enhancing the system's interference resistance and active...

Kehua has showcased its latest energy storage solutions at the 2024 edition of RE+ at Anaheim, debuting its cutting-edge liquid-cooled modular product. The company's solutions can improve ...

With 37 years of robust expertise in power electronics and over 4,000 new energy project developments, Kehua Data holds a competitive advantage in large-scale, long-duration grid-structured energy ...

The 300MW/1200MWh grid-forming independent energy storage project in Northwest China is the largest of its kind in the global lithium iron phosphate battery storage sector, setting a benchmark for grid ...

Relying on the abundant accumulation and rich experience in the energy storage industry, KEHUA will continue its contribution to building a new power system, thus promoting the energy revolution and ...

In 2023, Kehua took the lead in applying grid-forming energy storage technology in a hundred MW-level energy storage project, enhancing the system's interference resistance ...

With over 35 years of expertise, we deliver innovative UPS systems, data center infrastructure, and renewable energy solutions to customers in over 100 countries.

Join us in Dubai to forge the partnerships that will power our future.
