

From California to New England, construction of solar energy is picking up speed, showing promise for hitting sustainability goals. In this article, we cover the largest solar energy ...

Search all the announced and upcoming solar photovoltaic (PV) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in United States (US) with our comprehensive online database.

We expect 63 gigawatts (GW) of new utility-scale electric-generating capacity to be added to the U.S. power grid in 2025 in our latest Preliminary Monthly Electric Generator Inventory ...

Explore the latest milestones in U.S. utility-scale solar projects, from Texas to Colorado, showcasing mega farms driving renewable energy growth.

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

Latest news on the solar energy and photovoltaics industry in the USA: installations, manufacturing, markets & policy, and technology.

Imerys has signed a 15-year solar Power Purchase Agreement (PPA) with Akuo for a 195 MW plant in Texas. This initiative will help meet 30% of the US energy needs and reduce carbon ...

SETO released a notice of funding opportunity for research, development, and demonstration projects that commercialize innovative solar PV technologies in crystalline silicon module, cadmium telluride ...

The focus is on ground-mounted systems larger than 5M AC, including photovoltaic (PV) standalone and PV+battery hybrid projects (smaller projects are covered in Berkeley Lab's separate U.S. Distributed ...

Solar power plants are the quickest and most economical way to get more kilowatts flowing into energy-thirsty communities in the US, as capably demonstrated by a new 100-megawatt ...
