

Mexico charging and swapping energy storage project

The role of energy storage in Mexico's 2025 electricity sector restructuring. BY RODOLFO RUEDA
Eighty-seven years after the oil expropriation of 1938, another turning point in ...

Mexico's energy landscape is undergoing a radical transformation, and the Mexico Energy Storage Demonstration Project stands at the forefront of this revolution. This initiative combines cutting-edge ...

In summary, electrical energy storage in Mexico and other Latin American countries is in a phase of growth and development. The implementation of energy storage systems is essential to ...

Mexico is seeing a surge of large-scale solar and battery storage proposals across multiple states following an October decree that sets clearer rules for private energy investments.

Mexico is featured in the White Paper on Energy Storage in Latin America and the Caribbean, published by the Latin American Energy Organization (OLADE), as a case of progressive ...

Mexico's new 30% battery storage mandate is set to transform the renewable energy sector. Learn how this policy impacts grid stability, private investment, and the future of energy ...

Among the awardees, subsidiaries of global energy heavyweights such as Iberdrola, Dhamma Energy, Sunstone Power, Copenhagen Infrastructure Partners and Elecnor stand out. ...

As Mexico accelerates its solar buildout, pairing it with battery storage from the outset will be key to maximizing long-term value and reliability. Felipe Gallego Llano, COO and Co-Founder, ...

As Mexico accelerates its energy transition, Battery Energy Storage Systems (BESS) are rapidly emerging as a cornerstone of the country's power strategy. Once considered a niche ...

Hybrid renewable energy plants, particularly solar-cum-storage installations, constitute another significant growth driver for energy storage in Mexico. State-owned utility CFE is constructing a ...
