

# Namibia communication base station battery energy storage system deployment planning

A joint venture (JV) between the two Chinese companies will deliver the 54MW/54MWh Ombuu battery energy storage system (BESS) project in Namibia's Erongo Region, at the existing Omburu Substation.

Once operational, the Omburu BESS will allow NamPower to manage energy supply and demand more effectively. The system will perform energy arbitrage, displace costly emergency ...

In order to increase Namibia's share of RE, reduce its dependency from electricity imports and minimize negative environmental impacts from fossil fuel-based electricity supply, the Namibian Government initiated ...

In light of this situation, KfW offered to finance a Battery Energy Storage System (BESS) project to support the power grid. In this context, we conducted a detailed feasibility study to identify the ...

In December 2023, the country signed contracts for its first utility-scale battery energy storage system (BESS) - a 54MW/54MWh project at Omburu Substation [1] [2]. But why should the world care about this project in ...

Namibia is not yet self-sufficient, but the combination of grid-scale storage and transmission expansion is laying the foundation for a more resilient and renewable-driven power system.

The project is expected to be completed and commissioned in the second quarter of 2026, according to the statement. A press release from SDEE said the project will "enable NamPower to cost ...

NamPower, Namibia's state-owned power utility, has signed a contract with a Chinese joint venture to build the first utility-scale battery energy storage system (BESS) in the country and the Southern ...

The package places special emphasis on the integration of renewable energy through reinforced transmission lines and the installation of a second utility-scale battery storage facility.

Lesson Learnt Shift from One-Stage to Two-Stage Bidding: Increase of costs for the battery cells of around 10 -30% compared to 2021. Long lead times with up to 1.5 years of delivery after contract signature. Binding ...
