

Harness the power of renewable energy today with Lightforce. Store your solar power and use it anytime with Lightforce's solar battery systems NZ. Keep your home powered through the night and during ...

WEL Networks and developer Infratec have launched their grid-connected battery energy storage system (BESS) in New Zealand.

EECA has supported the development and release of a new Publicly Available Specification (PAS) that gives Kiwi homeowners a clear, practical guide to choosing and using solar ...

With solar and battery storage, households can become a key part of our energy infrastructure. Every home with a battery is basically removed from the peak load, can add security during blackouts and ...

Best practice guidance to help homeowners choose, install, and maximise solar PV and battery storage for savings, reliability, and sustainability.

New Zealand's unique geography and climate make it perfect for solar energy. But here's the catch - sunlight isn't available 24/7. That's where photovoltaic power storage systems come in. These ...

In this blog, we'll break down what New Zealanders need to know about home batteries in 2025, including up-to-date pricing, real-life savings, and when the payback really makes sense.

To meet customer needs, Dyness offers an integrated energy storage system solution based on the Cygni series. The system supports 8kW and 10kW power options, with a capacity range of 7.68kWh ...

In March 2022, the Electricity Authority Te Mana Hiko decided to amend the Electricity Industry Participation Code 2010 to enable energy storage systems, like grid scale batteries, to offer ...
