

New renewable energy solar sites in brazil

Our trend report reveals Brazil's solar power and renewable energy preferences, including bifacial modules, central inverters, trackers, and AC BESSs.

The projects combine solar, wind, and battery storage to address the challenges of variable production and ensure stable power supply--demonstrating how technology can accelerate ...

In Minas Gerais, the Enel Group's Arinos Solar Park is born: a project that is reshaping Brazil's energy landscape, creating jobs and sustainable social value.

The energy sector witnessed the inauguration of 301 new power plants across 16 Brazilian states. Renewable sources dominated the expansion, with solar and wind energy ...

Sao Paulo, Dec.09, 2025 - ArcelorMittal and Atlas Renewable Energy have completed part B of the Luiz Carlos Solar Park, 90 days ahead of schedule. The photovoltaic facility, located in Paracatu in ...

Casa dos Ventos, which has developed one of every four wind power facilities in Brazil and has about 35 GW of renewable energy deployed in the country, will utilize equipment from U.S. ...

Statkraft, Europe's largest producer of renewable energy, has inaugurated new solar farms and batteries at COP30 in Belém, Brazil. The hybrid projects are utilising some of the world's ...

These records highlight the growing importance of solar energy in Brazil's energy landscape and its potential to soon become a major force in the country's energy transition.

Solar energy in Brazil surpassed the 55 GW milestone in March 2025, more than doubling its photovoltaic (PV) count in the last few years. That breakneck expansion is reshaping Brazil's energy ...

Fresh from its restructuring, Renova Energia will purchase the 149.6-MW Boa Hora 4 & 8 solar parks in Pernambuco, strengthening its clean-power pipeline in Brazil.
