

Cloud Services The cloud services optimized for ultra-low power Nordic Semiconductor wireless devices  
Cloud Services Overview Location Services Security Services Device Management Device ...

We highlight Sweden's top 10 energy storage investors, who finance and deploy capital across grid-scale battery systems, hybrid renewables, and other storage technologies. These leaders are adapting to market changes ...

The "IDR01" is based on Nordic's nRF54L15, that doubles the processing power and triples the processing efficiency of the previous generation of SoCs, enabling the smart ring to combine a host ...

Nordic Semiconductor is a global leader in low power wireless connectivity solutions, providing the essential platform and wireless technologies that connect IoT devices within the consumer, ...

This article explores the Nordic energy storage market's unique opportunities, technological innovations, and practical applications for commercial and industrial users.

This article will introduce the top 10 energy storage companies in Sweden and explore their technological advantages and marketing strategies.

Nordic Semiconductor, a global leader in low power wireless connectivity solutions, today announced the launch of the nRF54LM20A, the latest addition to its next-generation nRF54L Series of ultra-low ...

Battery Energy Storage Systems (BESS) are the perfect complement to solar energy, which is one of the most predictable and cost-efficient renewable energy sources available. By storing excess energy, BESS makes it ...

Identify and compare relevant B2B manufacturers, suppliers and retailers. MineStorage is dedicated to enhancing energy storage solutions, crucial for a sustainable energy future.

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, today announces the acquisition of its long-term partner, Memfault Inc., the market-leading cloud platform provider for ...

Nordic Solergy AS specializes in energy storage in commercial buildings and profitable solar energy. Explore our solar power plants and battery in building solutions. We offer short-distance and sustainable energy ...

Summary: Discover how Nordic solar ecosystem manufacturers are transforming renewable energy with cutting-edge technology and sustainable practices. This article explores industry trends, key innovations, and

...

Discover the top emerging companies in the Energy Storage Startups in Nordics, their funding activity, key investors, company highlights, and growth stages

We develop battery modules, racks and energy storage systems designed to power industrial applications across challenging sectors, including construction, maritime, defence, and grid systems.

Nordic Semiconductor, a global leader in low-power wireless connectivity solutions, is bringing AI intelligence and functionality to the smallest battery-powered IoT devices.

It is designed as a complementary component to Nordic's nRF52 Series and nRF53 Series System-on-Chips (SoCs) to ensure reliable power delivery and stable operation, whilst maximizing battery life
