

What are the best outdoor lights for outdoor spaces?

Our top pick for most outdoor spaces is the AloftSun Motion Sensor Solar Landscape Spotlights. We love these lights so much, we've tested them twice. Both times we found them to be durable, easy to use, and bright. We also love that these spotlights can detect motion from as much as 33 feet away, depending on the setting.

How do I choose the Best Lighting for my yard?

Before choosing just any one for your yard, start by asking yourself how much brightness you need and if the light needs to be direct or spread out. Solar pathway lights guide you when walking at night, while mounted spotlights may have security monitors or be intended to highlight landscape features.

How do I choose the best solar lights?

All you have to do is pick the spot you want illuminated, then watch it happen (literally) overnight. To find the best solar lights, we evaluated each model based on design, brightness, and durability. For more information on how we tested them, check out our testing process below.

How do I choose a solar pathway light?

Solar pathway lights guide you when walking at night, while mounted spotlights may have security monitors or be intended to highlight landscape features. Another factor to think about is where you place your lights. Some are staked into the ground, while others are mounted or hung on the side of your home.
