

We've already built a growing business installing commercial and domestic solar in the region, working with PPUC and the National Development Bank of Palau to help Palau reach its Net Zero climate goals.

Solar electricity will be produced by a hybrid 15.3 MWdc (13.2 MWac) solar photovoltaic (PV) plus 10.2 MWac/12.9 MWh battery energy storage system facility. Extensive safeguards to protect Palau's ...

This project, financed by the Australian Infrastructure Financing Facility for the Pacific, has reduced carbon emissions from diesel generators and supported Palau in reaching its renewable ...

The AUD16.38 million grant-funded Palau Renewable Energy Integration Project will upgrade the Palau grid, maximising its efficiency in receiving renewable energy from the Palau Solar facility financed by ...

Palau Solar is a subsidiary of Utiligence, created to design, supply and install domestic solar power throughout the archipelago of the islands of Palau. Through a project with the Asian Development ...

KOROR, Palau (July 10, 2025) -- Australia has pledged \$16.4 million to support the next phase of Palau's transition to renewable energy, with funds designated to secure a battery energy storage ...

Palau celebrated the inauguration of its ground-breaking solar-plus-storage project, marking a significant milestone in the region. Developed by Solar Pacific Energy Corporation ...

sidential solar solutions. Learn how our customized solar power systems can reduce your energy bills, increase property value, and support a sustainable future. Get started with a free consultation

The largest solar and battery storage project in the Western Pacific has been installed in Palau, a 15.3 MW solar system combined with a 13.2 MWh battery. The US\$29 million installation will meet more ...
