

SDG& E has been rapidly expanding its battery energy storage and microgrid portfolio. We have around 21 BESS and microgrid sites with 442 megawatts (MW) of utility-owned energy storage and another ...

Broomfield, CO - RES (Renewable Energy Systems) and San Diego Gas & Electric Company (SDG& E) today announced the recent commencement of commercial operation of a 30 MW/120 MWh ...

Maxwell Technologies, based in San Diego, California, is a manufacturer that specializes in energy storage solutions, particularly ultracapacitors. Founded in 1965, the company has carved out a niche in providing ...

Discover how UC San Diego's Energy Storage Group is driving the future of renewable energy with cutting-edge research in battery storage, microgrids, and carbon removal.

The 200 megawatt (MW)/400 megawatt-hour battery storage project is located in the Barrio Logan community and marks Arevon's fifth utility-scale energy storage facility in operation in California. The ...

The Peregrine Energy Storage Project is located in the Barrio Logan community in San Diego at Main Street and South 27th Street, allowing close access to an electrical substation and the transmission system.

In response to this direction, the County is taking steps to guide the safe and responsible growth of Battery Energy Storage Systems (BESS). It is doing this by developing clear standards through a Zoning Ordinance ...

As San Diego's premier commercial energy contractor with offices in UTC and Downtown, we specialize in maximizing savings in SDG& E territory. Our local experts navigate San Diego's expedited permitting process ...

The Kearny Mesa Battery Storage Project ("Kearny Mesa") is a one megawatt, four megawatt hour battery storage facility located in San Diego, CA utilizing Solar Turbines LS1000-4 storage technology.

An energy storage system paired with solar can mean having independence from the utility grid. You can produce your power during the day, store the excess in the batteries and discharge them at night.
