

Cabinet air cooler is actively cooling with compressor, and it will remove the heat inside the cabinet enclosure to outside. It also can keep the dust and heat outside the cabinet enclosure, avoiding ...

The 125kVA/215kWh Air-Cooling Outdoor BESS Cabinet integrates a high-safety LiFePO4 battery system, 125kVA PCS, and intelligent BMS in a compact outdoor cabinet. With IP54 protection and air ...

Felicity Solar air-cooled series solar air cooling cabinet have high efficiency and MPPT charging function, realizing energy use of outdoor energy storage system.

A specialized enclosure air conditioner from Kooltronic can help extend the lifespan of battery energy storage systems and improve the efficiency and reliability of associated electronic components.

This product is highly flexible and expandable to meet the diverse application needs of various clients. To ensure reliability and stability, the battery system uses a air cooling system to maintain optimal ...

Designed for rapid deployment and flexible expansion, it offers high energy efficiency, system safety, and intelligent control for commercial and industrial applications.

In air-cooled energy storage systems (ESS), the air duct design refers to the internal structure that directs airflow for thermal regulation of battery modules.

30kW/60kWh outdoor integrated cabinet for industrial and commercial storage. Suitable for various industrial and commercial application scenarios such as industrial parks and commercial complexes, ...

We offer distributed and centralized storage systems for air and liquid cooling to meet the requirements of different applications. Applications range include hotels, parking lots, industrial parks and other ...

This air conditioner delivers 500W of precise cooling capacity, ideal for small-to-medium telecom cabinets, lithium battery cabinets, edge computing nodes, and IoT infrastructure housings. It ...
