With scalable solar capacity of 30-200kW and battery storage options from 50-500KWh, Solarfold(TM) provides reliable power wherever you need it - from remote construction sites to disaster relief operations.

These rugged, self-contained systems integrate large solar arrays, advanced battery storage, and high-capacity fuel cells -- with optional diesel redundancy when regulatory or client requirements demand it.

Introduce power to any location with our Solar Energy Container. It's a transportable, fast-to-deploy source of green energy, housed in a standard-sized container for global mobility. Set on hydraulic legs for easy ...

A Mobile Solar Container is a self-contained solar power unit housed within a transportable container. Designed for mobility, it offers rapid deployment of renewable energy solutions in remote or temporary locations.

Our 20 and 40 foot shipping containers are outfitted with roof mounted solar power on the outside, and on the inside, a rugged inverter with power ready battery bank.

We offer two types of solar containers that differ in design and power output. Besides our flagship, auto-foldable container, we also offer the manual version of this unit.
