

# Solar power generation is very popular on TikTok

From improving brand visibility to engaging with a younger audience, TikTok offers notable benefits for solar marketing. Businesses can tap into this popular platform's potential by using creative video ...

TikTok, known for its short, engaging videos and viral reputation with a younger demographic, can potentially revolutionize the promotion of clean energy. If a 60-second clip about ...

What solar, battery and EV information got Gen Z's attention in 2023? Here are SQ's most popular TikToks of 2023...

This quiet revolution was fuelled by two key factors, the mass availability of low-cost solar panels from neighbouring China and the viral spread of knowledge on social media.

What we didn't have were two crucial ingredients: a flood of dirt-cheap Chinese solar panels, and a culture of uncles uploading how-to videos in their own language every single night.

It got me curious about how people are really using solar worldwide. So I spent some time on TikTok, where OMG the solar videos are amazing, and the people power really shines through.
