

What is a solar panel patio cover?

A solar panel patio cover serves the dual purpose of providing shade and harnessing solar energy through panels installed atop it. This option is particularly favored by homeowners facing unsuitable roofs for solar panel installation or those who wish to maintain their roof's aesthetic appeal.

Why are solar panel patio covers so popular?

The popularity of solar panel patio covers is on the rise, driven by a growing number of homeowners seeking to reduce their carbon footprint and cut energy costs. In summary, the installation of solar panels on a patio roof, often referred to as a solar patio cover, is a fashionable and efficient means of harnessing solar energy.

Do you need a solar panel patio cover?

Homeowners with unsuitable roofs often favor solar panel patio covers. A solar panel patio cover is a brilliant fusion of eco-friendly technology and outdoor comfort.

How much does a solar patio cover cost?

When factoring in the cost of solar panel installation, typically totaling around \$13,300 for a 6kW solar system after solar tax credits, the overall expenditure amounted to approximately \$18,800. On average, prices for hiring a company to construct a solar patio cover spanned from \$14,300 to \$23,300.
