

A grid-tied 229.9kWp solar energy rooftop system has been designed, supplied, installed and commissioned in Juba, the capital of South Sudan. The system comprises 415 panels of 550Wp with ...

A recent home installation project in Khartoum, the bustling capital city situated on the banks of the Nile, demonstrates just how transformative solar energy can be when paired with high ...

In 2020, Rainmaker finished installing their first solar-powered irrigation system in Thiet, South Sudan, serving more than 3,000 people.

The Republic of South Sudan is a land-locked country located in East-Central Africa with a population of 11.4 million people. In 2020, the World Bank, in response to South Sudan's transitional government's ...

Facing grid instability for your solar factory in Sudan? Discover how off-grid and hybrid power solutions can ensure reliable energy and boost profitability.

In 2020, the World Bank, in response to South Sudan's transitional government's request, set up the Pathways to Electricity Access Expansion in South Sudan ASA (Advisory Services and Analytics).

Summary: Discover how DC inverter installations are transforming energy access in South Sudan. This guide covers technical insights, real-world applications, and why solar-powered solutions are critical ...

Fortune CP provides innovative renewable energy products and services in South Sudan. These include solar components (solar panels, inverters, batteries), off-grid and grid-tie solar systems for ...

Once we understand how much power you need for your solar installation, our engineers will design the optimal solution to meet those needs. With a complete and approved design, your SunGate solar ...
