

This is a list of the most powerful wind turbines. The list includes wind turbines with a power rating that is within 5 MW of the current most powerful wind turbine that has received customer orders that is at ...

America's first "commercial scale" offshore wind energy project has decided to use GE's colossal Haliade-X turbines, the world's largest and most powerful.

Power-technology profiles the world's 10 biggest wind turbine designs based on power output and rotor diameter. The SeaTitan(TM) 10MW wind turbine designed by American energy ...

The largest wind turbine is the MySE 16-260, built by Mingyang Smart Energy (China) for the China Three Gorges Corporation (CTG). The MySE 16-260 has a rotor diameter of 260 m (853 ft), with ...

Samsung Heavy Industries installed the Samsung S7.0-171 wind turbine in 2013, making it one of the tallest and biggest wind turbines globally. The rotor has a diameter of around 171 meters ...

By their very nature, wind turbines can be astoundingly huge-but just how big and powerful can the most impressive turbines get? Today we'll be taking a look at 8 of the largest wind ...

This is GE's Haliade-X nacelle--the heart of the world's most powerful wind turbine. With a colossal 12MW output and 107-meter blades, it can generate enough electricity to power over ...

With a capacity to generate 15 megawatts of power, the Vestas V236-15.0 MW is the largest and most powerful wind turbine as of 2025 to have been commercially deployed.

Explore the top 13 largest wind farms in the world by capacity, with key facts, stats, and global clean energy insights.

News about switching to greener energy sources is always good news, and this certainly counts: The world's largest wind turbine constructed to date is now up and running and contributing ...
