

Shandong Shenxian Wangzhuangji Zhongshen solar farm is an operating solar photovoltaic (PV) farm in Wangzhuangji Town, Shen, Liaocheng, Shandong, China.

The project, announced during the Abu Dhabi Sustainability Week, represents a significant step forward in the development of round-the-clock gigascale combined solar and energy ...

The full completion and commercial operation of the Edwards & Sanborn project in California was announced in January 2024. The project in Kern County pairs 875MWdc of solar PV ...

The project is located in Minfeng County, Hotan Prefecture, Xinjiang Uygur Autonomous Region. It involves the planned construction of one 200MW/800MWh lithium iron phosphate (LFP) ...

This project is one of the first batch of large-scale wind and photovoltaic base projects in China, located within the Talatan Photovoltaic and Thermal Power Park in Gonghe County, Hainan ...

"China's largest" integrated offshore photovoltaic (PV) demonstration project, combining solar power, hydrogen production and refueling, and energy storage, has been connected to the grid ...

The multi-project cluster includes the world's largest single-site electrochemical energy storage facility: the 4 GWh Envision Jingyi Chagan Hada Energy Storage Power Station.

Located along the coast of Jiangsu Province in China, this project combines fishery farming and PV power generation, with a PV capacity of 120MW and a 20MWh energy storage system.

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been connected to ...
