

Who should I ask for compensation if the photovoltaic panels are broken

What happens if a solar panel is broken?

Common causes of solar panel damage are falling objects, thermal stress, and micro-cracks and scratches. A broken solar panel may continue to work, albeit at a reduced efficiency. Broken solar panels pose a serious fire and safety risk and must be removed and replaced. Some companies can fix broken solar panels, but this is costly.

Can a broken solar panel be replaced?

The general rule of thumb is that broken or scratched glass can be replaced if it hasn't caused any further damage to the solar panel. Any damage to the inner components requires the solar panel to be replaced. Can I Fix Solar Panel Parts Myself?

What should I do if my solar panels damage my home?

Document Any Damage: Take photos and keep records of any home damage caused by the solar panels. Consult with a Solar Litigation Attorney: A skilled attorney can evaluate your case and guide you on the strongest legal strategy.

Can a broken solar panel be recycled?

A broken solar panel that cannot be repaired will have to be taken away for recycling. Whatever you do, do not throw it in a landfill or dump it anywhere. Solar panels contain harmful or toxic elements that can cause environmental damage if they leach into the ground.
