

Why can't you step into photovoltaic panels

Why is used here as an interjection. According to Merriam-Webster: --used to express mild surprise, hesitation, approval, disapproval, or impatience <why, here"s what I was looking for> In my ...

In the sentence "Why is this here?", is "why" an adverb? What part of speech is "why?" I think it modifies the verb "is", so I think it is an adverb.

I don"t know why, but it seems to me that Bob would sound a bit strange if he said, "Why is it that you have to get going?" in that situation.

There are a number of things to consider when installing a PV system on the roof of a building, but perhaps the most popular topic for questions has to do with the required pathways.

Stepping on solar panels can be a tempting idea for maintenance or cleaning purposes, but there are multiple factors to consider before doing so. Solar panels consist of glass and other ...

Solar panels are safe to touch because the cells are covered by an aluminum frame and tempered glass. The cells beneath the glass generate current, but you cannot touch these unless you break ...

A person can walk on solar panels, but it could affect the power production in the longterm via micro-cracks, so we don"t recommend doing it.

"why" can be compared to an old Latin form qui, an ablative form, meaning how. Today "why" is used as a question word to ask the reason or purpose of something. This use might be ...

How Much Weight Can Solar Panels handle?Is It Safe to Walk on Solar Panels?How Can Solar Panels Get Damaged by Walking on Top of them?What to Do If Your Solar Panels Break?Do I Need to Walk on The Solar Panels to Clean them?ConclusionThere are several ways to damage a panel or reduce its output, which considering the solar panel cost, is not worth the risk. This section explains the different damages you can cause to PV modules when walking on top of them.See more on todayshomeowner
