

Windhoek solar farm by Jacques | Jul 1, 2025 A solar renewable energy project with a capacity of 25 MW. Located in Windhoek, Khomas Region, Namibia. Current status: announced.

The municipality of Windhoek in Namibia has just announced that a solar project will be implemented to meet the electricity needs of its population. The project consists of five solar ...

The project stems from a 2021 bid by the City of Windhoek seeking an Independent Power Producer (IPP) to finance, procure, install, commission, and operate the 25MW solar PV plant ...

Longstanding plans by the City of Windhoek to construct its own photovoltaic (PV) solar power plant are back on the drawing board with the city now exploring the possibility of setting up a ...

The City of Windhoek has confirmed to Network Media Hub that its planned megawatt solar PV project has been delayed for nearly two years, with the procurement process still under ...

Windhoek solar farm is an announced solar photovoltaic (PV) farm in Windhoek, Khomas Region, Namibia.

Windhoek Cimbebasia Solar PV Park is a 25MW solar PV power project. It is planned in Khomas, Namibia. According to GlobalData, who tracks and profiles over 170,000 power plants worldwide, the ...

Once established, the Windhoek Solar Centre will operate as an independent information and knowledge hub, aimed at promoting and adopting solar energy technologies throughout Windhoek.

The 25MW Solar PV project has several benefits for the city. It will diversify the electricity supply and reduce the dependence on NamPower, the national electricity supplier.

The 1.6MW rooftop solar plant at Maerua Mall generates clean energy to power retail and operational activities, reducing electricity costs and the mall's carbon footprint.
