

Proceedings of the 33rd annual ACM conference on human factors in computing ... R Rohan, K Pareek, W Cai, Y Zhang, G Xu, Z Chen, Z Gao, Z Dan, ...

Table of contents A Renewable Energy Generation Power Forecasting Method Based on Double Attention Mechanism-Long Short-Term Memory Qiao, ZhenjiaLi, MinZhou, BoyuHan, ...

Y F Zhang received his B.Eng. from Shanghai Jiao Tong University, China in 1985 and Ph.D. from the University of Bath in 1991. He joined NUS in 1992 and is currently an Associate Professor at the ...

Power Grid,Wind Power,Balance Of Power,Distribution Network,Energy Storage Systems,Objective Function,Optimal Model,Power System,State Of Charge,Absorptive Capacity,Actual Output,Analysis ...

Wind turbine blade failure will reduce power generation efficiency and increase operating costs. Serious faults will lead to production accidents.

Steel structural frame is a popular structural form to cover large-span roof space and under high winds. Either part of the roof enclosure or the entire roof structure can be lifted off a...

This paper presents a coordinated control strategy of the grid-side and machine-side converters (GSC and MSC) of the directly driven permanent magnet synchronous generator (D-PMSG)-based wind ...

Request PDF | A Flexible Full-Scale Converter With Reconfiguration Functionality for Wind Turbine | High penetration of the inverter-based renewable energy generation is diminishing the grid ...

Dr. Yunfeng Zhang has been a Professor in the Department of Civil and Environmental Engineering since 2008. He received his PhD degree from the California Institute of Technology in 2001.

Yunfeng Zhang College of Electrical Engineering, Sichuan University, Chengdu, China
